#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Upon beginning examination of the elected invention, examiner finds this application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species 1, Figs 1-2c

Species 2, Figs 3-4c

Species 3, Figs 5-6a

Species 4, Figs 7-8c

Species 5, Figs 9-10c

Species 6, Figs 11-12

Species 7, Figs 13-14

Species 8, Figs 15-18

Species 9, Figs 19-21

Species 10, Figs 22-29

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Art Unit: 3677

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner: Applicant to advise.

The following claim(s) are generic: Applicant to advise.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: To share unity, the special technical feature must be inventive. Note that DE19720406 reads to anticipate at least claim 1

(from the figures and translated abstract),

*The self-drilling fixing plug comprises a metal case with fixed drill tip (14) at the front end. There is a keyed recess for the attachment of a tool at the other to make a hole by rotating case and tip together. The plastic expanding case has a hollow section fitting the tip of a screw at the front end. It has axial slots dividing it into spreading segments (24). These anchor the plug when compressed axially by turning the screw (34). This spreads or bends the segments out radially. In the new design the metal case surrounds the plastic and has long slots. The spreading segments of the plastic case pass through the slots of the metal case. Preferably the metal is die cast zinc, the plastic is polyamide or polyethylene.*

and the EPO has determined that it fully anticipates claims 3-6,8,13,14,18,29,32,34-

37,39,44,45,49,60,63,64 and makes obvious claims 2,7,19-21,23-25,27,33,38,50-52,54-

56, and 58. Thus if the shared features are not inventive, there is lack of unity of invention.

A telephone call was not made to request an oral election to the above restriction requirement, due to the large number of species.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine W. Mitchell whose telephone number is 571-272-7069. The examiner can normally be reached on Mon - Thurs 10 AM - 8 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann can be reached on 571-272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
